## I Watched It on the Radio

Don Schlitz / Lionel Cartwright; Recorded by Lionel Cartwright  
Album: I Watched It on the Radio, Track 1 (1990)

### Opener/Break/Closer: (Grand Square)

\* I had a six transistor when I was a kid  
Under my pillow, I kept it hid  
When the lights went out and no one could see  
Over the airwaves, the world came to me  
Four Girls Promenade once inside that ol' ring  
You Swing your partner 'round, Promenade 'em I sing  
And I had a seat on the very front row  
And I watched it all on my radio

### Figure:

Now the Heads Promenade travel Halfway around  
Pass the Ocean then everybody Extend  
Slide Thru and then do a Right & Left Thru,  
Ladies lead Dixie Style To An Ocean Wave,  
Boys Scoot Back, the Girls Circulate,  
Allemande Left come back, and all Promenade  
And I had a seat on the very front row  
And I watched it all on my radio

### Tag:

Left Allemande, Swing your Partner you go,  
And I watched it all on my radio

### Alternate Lyrics:

\* I'd go through the stations 'til I found a game  
I knew how they played by the sounds of their names  
The sluggers hit homers, those pitchers threw smoke  
And I watched it all on my radio

\* When the ball game was over, the wrap up complete  
I'd search through the static 'til I found a beat  
The Beatles and Creedence, the Stones and the Byrds  
You should have seen all the groups that I heard
